

FEG
Wardrobe System

FEG wardrobe systems offers a new concept in walk-in wardrobes. The unique design, that includes anodised aluminium wall uprights combined with back panelling and support shelves creates an 'open structure' that will suit any linear, L-shape or C-shape wardrobe composition.

FEG offers a complete solution that combines hanging drawer unit hardware, hanging rods and clothing accessories to create a wardrobe system that delivers flexibility during construction and installation, as well as to the wardrobe user.

The unique wardrobe system design can be configured with or without back panelling, giving it the flexibility to meet a variety of budget requirements.

Top: Hanging hardware kit, allows drawer cabinets to be suspended to desired heights.

Bottom: Pant rack accessory with pull-out frame.

No back panelling configuration with exposed rendered wall.

No shelf configuration with mirror back panelling.

Linen basket with pull-out frame.

Shelf pins attached to shelf slide into bracket. 25mm shelf shown.

Unique hooking system, offers easy installation and configuration of shelf positions.

Railing hooks to side support bracket for an integrated look.

Wardrobe System

Best Service. Best Value. Best Advice.
